

SPEAK WITH STYLE™

Voice Framework™

To align our training deliverables, our courses are guided by a strategic VOICE Framework™ that equips participants with effective tools and techniques required to speak with style.

Training Methodology

At Speak With Style, our primary objective is to equip our clients with professional English communication skills and empower them to apply these skills in the real world. Our courses are strongly focused on an outcome-based approach and we place maximum emphasis on hands-on learning by presenting real-life scenarios.

We offer a blended-learning experience by incorporating a range of highly interactive, engaging and results-driven training methods that include audio and visual recordings, role-plays, presentations, individual assessments, questionnaires, demonstrations and group discussion activities.

Vocal Resonance Develop a powerful and dynamic vocal presence	Oratory Skills Become a confident and effective communicator	Inflection Incorporate melody and rhythm to bring your speech to life	Clarity Enhance your speech articulation and enunciation skills	English Language Development Build strong language foundation skills
---	--	---	---	--

Upon successful completion of our public workshops, participants will receive a certificate of completion and a comprehensive training toolkit that includes course handouts, articles and additional materials to facilitate their learnings.

COURSE OVERVIEW

Have you ever had to repeat yourself to others because they could not understand you clearly? Do you wish to learn techniques that will allow you to speak English more fluently?

If you are someone who is required to speak in English, displaying clear and accurate speech patterns plays an important role in creating a positive impression of yourself to others.

Speech Training Masterclass™ is a two-day course designed to polish your speech techniques and transform the way you communicate with others around you by learning how to speak with clarity, power and expression.

COURSE HIGHLIGHTS

In this course, participants will learn:

- How to assess their speech strengths and weaknesses through detailed analysis and individualised feedback

- How our voice works and the different elements of vocal and speech delivery

- Key techniques to effectively employ our in-built articulators to achieve maximum speech clarity

- How to regulate effective vocal and breathing techniques to enhance vocal power and projection

- To develop awareness of individual sounds in the English Language and how to accurately create them

- The different tools of expressiveness that add inflection and rhythm to deliver messages with stronger impact

- How to overcome detrimental speech patterns and mistakes that can instantly kill a speaker's credibility
